

MEN'S COLLECTION

The DLX® spring summer collection for men is here. Utilising DLX® Membrane construction with taped seams, the outdoor jackets are more than capable of taking on the storms. Softshell jackets and trousers deliver all-round performance, making them a firm favourite any time of year.

Quick drying lightweight tops, trousers and shorts comprise an adventure active collection. These are perfect for travel and exploration, especially when summer temperatures soar. The quick drying pieces are equally at home in the gym or hitting the road. DLX® allows you to layer up or strip back as conditions dictate.
